

The image shows a serene spa setting with a large, rectangular hot tub filled with water. The walls are covered in a light-colored, patterned mosaic tile. Three small vases with pink flowers are placed on the edge of the tub. Stacks of white towels are neatly arranged on the left and right sides. The ceiling has recessed lighting, and a chandelier is visible in the background. The overall atmosphere is calm and luxurious.

BODY POLISH

This personalized service begins with a scent journey of the essential oil blend of your choice. Shea butter and salt are used to polish the skin, followed by an application of shea butter lotion - leaving skin smooth, soft and hydrated.

The Dermalinfusion body system delivers a combination therapy, which simultaneously provides body polishing, vacuum massage and serum infusion. This unique combination addresses the underlying cellular processes that bring about skin imperfections in many areas of the body.
